Jacqui Ahn

Full Stack Web Developer | Conversational Speaker of 5 Languages | MBA & MA

I'm a full stack developer who has consistently delivered high impact problem solving over a diverse range of programs. I am a curious person who loves learning new things.

WEB DEVELOPMENT EXPERIENCE

General Assembly, Washington, DC — *Full Stack Web Development Immersive*

June 2016 - September 2016

Project-oriented coursework in modern web development frameworks and methodologies in a compressed timeframe. Projects include:

Index Cards —
https://jacahn.github.io/Jac-Ahn-Project-1-Flash-Cards/

A flash card application using JavaScript and a JQuery plug-in

Fried Finder — https://github.com/jacahn/Project-2-FriedFinder

Code for a fried chicken restaurant review site using Ruby on Rails and the Devise gem for user authentication

PicStory — https://project3-26607.firebaseapp.com/

A team project travel photography application using HTML, CSS, JQuery, Bootstrap, Angular and Firebase

WORK EXPERIENCE

Jacqui's Home Inspection LLC, Arlington, VA — *Business Owner | Principal Inspector*

January 2013 - June 2016

- Owned and operated a successful residential inspection business, performing ~400 inspections for properties ranging in value from $200,000 to $1 million.
- Analyzed and evaluated the systems of a home: plumbing, electrical, structural, roof, exterior and interior. Provided detailed reports with recommendations for repair and system replacement.

Federal Government Contractor, Arlington, VA — *Independent Museum Contractor*

February 2013 - April 2015

- Increased the efficiency of 10 team members in preparing, installing and deinstalling seven art exhibitions with budgets ranging from $100,000 to $2 million at the Smithsonian Institution.
- Managed the processing, documentation and tracking of high-value domestic and international art acquisitions.
- Recorded, researched and monitored art object, loan and constituent information in the museum's inventory software, The Museum System (TMS).

Artist and Business Owner, Arlington, VA — *Business Owner*

January 2006 - January 2013

- Created commissioned stained glass art pieces for private clients.
- Developed and honed arts and handicraft skills base under established masters of stained glass.
- Researched art production networks and delivery systems involving artists, museums, galleries, and shipping companies. Built a small network of artists and skilled craftspeople from project collaborations in museums and building worksites.

US Civilian Research and Development Foundation (CRDF), Arlington, VA — *Development Associate*

July 2005 - July 2006

- Identified funding from private foundations and federal funding from US Department of State.
- Wrote 3 proposals to fund CRDF's new projects in Pakistan and the former Soviet Union.
- Communicated with current funders; collaborated with Communications team to develop brochures and reports for submission to funders.

US Civilian Research and Development Foundation, Arlington, VA — *Program Manager, BioIndustry Initiative*

July 2004 - July 2005

- Managed administration and finance of a biological weapons nonproliferation program funded by US State Department.
- Oversaw and monitored a team of seven employees in developing and executing over 20 BII projects, with project budgets ranging from $5,000 to $3,400,000.
- Monitored budget and expenditures, reviewed financial reports, and discussed reports with CFO.
- Participated on a proposal preparation team to renew funding from the State Department.
